

Students Meet at 1 p.m. on Athletics Issue

TO GIVE McGill Commerce Students a better understanding of active industrial operations, the C.U.S. arranges visits to leading industries. During a recent visit to Steinbergs extensive warehouse and plant on Hochelaga street, a group of students

met Nathan Steinberg, Secretary-Treasurer of the company, who answered their inquiries and guided their tour. A group of Commerce students are shown with Mr. Steinberg studying a model of a warehouse.

Medical Missionary Will Relate Observations on War in Korea

S.C.M. Announces Thursday Talk
By Noted Church Worker

On Thursday in the Union Ballroom at five p.m., McGill students will have an opportunity to hear a noted medical missionary recently returned from Korea.

Dr. Florence Murray, a medical missionary of the United Church of Canada and a member of the hospital staff of a mission hospital in Seoul, capital of Korea, will relate to students her observations on the effects of the war on the Korean people and on the medical missionary work in that country.

Mrs. Murray a native of the Maritimes, first began her work in the Far East in 1923 when she went to Manchuria to work in a mission settlement there. She was eventually transferred to Hamhung in North Korea where she was in charge of a United Church Mission Hospital for over 20 years.

While in North Korea she was able to learn a great deal about the Korean people and their problems.

During World War II, Dr. Murray was interned by the Japanese when they overran Korea. Although she spent most of the war in the camp she was one of the few medical missionaries allowed to carry on medical work and administration in the camp itself. Because of her knowledge of the Korean people and Asians generally she was able to obtain certain privileges and freedom in her work while in the camp.

After the war, she returned to Canada for a short time and in 1947

she once more took charge of a hospital in Seoul. She saw one of her own hospital burned while in Seoul and experienced part of the effects of the war in that city.

The Students Christian Moment at McGill is sponsoring Dr. Murray in the Ballroom Thursday, and in the light of the world situation, state that they feel students will be most interested in the speaker whom they emphasize has no political affiliations and is in good standing with the United Church. George Stegen, president of the local chapter of the S.C.M., said last night that he felt Dr. Murray would have a message for all students interested in the Korean situation and the needs of the people of that country, which is so prominent in the world scene today.

Literary Society Talk

Pat Conroy, Secretary Treasurer of the Canadian Congress of Labour, will address the St. James Literary Society on Wednesday, Feb. 21, 1951. The meeting will take place in the Engineering Institute, 2050 Mansfield Street at 8.15 p.m. The topic of this address will be "Can we Win in Present World Struggle?"

Red Wings to Meet

On Wednesday, February 21, there will be a meeting of the Red Wing Society at 1.15 p.m. in the Women's Union.

The New Land Film Story of Israeli Farm Life To Be Shown in Hillel Program

'Dream No More' Is Presentation

"Dream No More" a story of the pioneers of Israel will be shown this evening as the main film in the "Israeli Film Night" in the Biology Building, in Room 250 at 8 p.m. Professor J. H. Quastel will give a short talk on "The Hebrew University."

The film night, one of the events of the Hebrew University Book Week will also include shorts on "The University on the Hill," "Ein Brera" (collective farm which was actively involved in the War of Liberation), "Land of Promise" (a panorama of the new State's potentialities).

In order to raise as many books as possible for the students at the Hebrew University, an admission of one book will be charged. Anyone who doesn't bring a book will be asked to pay a small nominal charge for the purchase of needed books.

The books required include novels in all languages, college level texts books, books about Canada and books by Canadians. Professor Quastel came to McGill three years ago from Cardiff, Wales. He is world famous as a bio-chemist and is well known for his advanced work in the field of enzymes. He is the Acting Director of the Institute for special Research and Cell Metabolism at the Montreal General Hospital in addition to his post at McGill. He is also a mem-

PROF. QUASTEL

ber of the Board of Governors of the Hebrew University.

"Dream No More" is an Israeli production describing the problems of adjustment for a Jewish D.P. who comes to Israel. He is terrified of the prospect of proving himself acceptable to Israel. He goes to a collective farm where he falls in love and is finally accepted. This English-speaking film has what is described as "charming humour or rare qualities; these make the film thoroughly enjoyable and worthwhile."

All students and faculty members are cordially invited to attend by the co-sponsors of this event—IZFA (Intercollegiate Zionist Federation of America) and Hillel Foundation.

Mathematician Parlays Pay Into Million

A University of Illinois mathematics professor really knew his mathematics—he built up a fortune of close to \$1,000,000 from an annual salary of \$6,000.

This was disclosed today in the will of the man who pyramided the money—the late George A. Miller.

He left his entire estate to the University of Illinois.

Miller, 87, when he died Feb. 10, was a familiar figure on the campus. He dressed plainly and often ate with students in the cafeteria. Not even his intimates knew of his wealth.

James G. Thomas, the lawyer who prepared the will, estimated Miller's holdings at between \$900,000 and \$1,000,000.

Anti-Fraternity Movie Originally McGill Thesis

A movie the theme of which has been termed "Communist inspired propaganda" is based on a novel written by a former McGill student.

"Take Care Of My Little Girl" alleged to contain an attack on the fraternity-sorority system, originated as an M.A. thesis in the English department and was written by Peggy Goodin.

The charges were made by L. G. Balfour, chairman of the Interfraternity Research and Advisory Council, and president of a fraternity jewelry firm. He demanded that Twentieth Century Fox drop the film on the grounds that it will "give comfort to the enemies of our country." He maintained that the American fraternities have "served our educational system for more than a hundred years."

Peggy Goodin wrote the novel as a thesis for her M.A. at McGill. She received the degree in 1949 and her story was published last year by the E. P. Dutton Company. Before it was off the presses, Twentieth Century Fox paid \$30,000 for the film rights and the author landed a job in Hollywood supervising its production. The picture is being directed by Anatole Litvak, and stars Jeanne Crain.

"Take Care of My Little Girl" is the story of Liz Erickson who joins a college sorority at her mother's instigation. Her mother, a former member of the sorority, is determined that her daughter shall have all the social advantages that accrued to herself by membership but Liz has her own ideas. Disgusted by the snobbery and prejudice that she finds, she decides to quit.

According to the publisher, The novel is primarily "good satirical fun; furthermore, it is a valuable insight into the state of affairs in countless sorority houses across the country. A controversial book, "Take Care of My Little Girl" is also an extremely funny book. All of the characters... and the University are imaginary."

Peggy Goodin says, "Less than a century ago women who went to college were pioneers in petticoats and spectacles. Bravely they invaded an intellectual community occupied almost solely by the male sex. Of necessity they banded together to form mutual-aid-and-protection societies which, in recent years, have aborted to an in-

Nominations Open For Student Posts

By MARY DRAPER

Four major campus posts and a number of faculty undergraduate offices are now open for nominations. Elections for President of the Student's Society, President of the McGill Union, President of the Women's Union, and President of the McGill Women Students' Athletic Association will be held on March 7.

At the same time, the vice-president and secretary of the Union, the executive of the Debating Union Society, the representative of the Athletic Board, and the Secretary of the Women's Union will also be elected.

Three undergraduate societies have also called for nominations for their executive positions. These are: Arts and Science, Engineering, and Commerce. Commerce elections will take place Thursday March 1, and Arts and Science on Monday March 5.

Nominations for President of the Students' Society must be signed by at least 100 members of the Students' Society, and there must be at least two nominees. President, Vice-President and Secretary of the McGill Union must be nominated by at least 25 male members of the Union. The Graduate Student member of the Union Executive must be nominated by 20 graduate students who are members of the Union, and will be elected by the Graduates.

The President and Vice-President of the Women's Union, and the President of the M.W.S.A.A. must be nominated by 25 women students. The Representative to

the Athletics Board by at least 50 male students; and the President, Secretary, Vice-President, and Junior Treasurer of the McGill Debating Union Society by 10 members of the Students' Society.

Nominations for all the above offices, as well as for Women's Union and M.W.S.A.A. offices, must be in by Friday, Feb. 23. The Students' Society and Union nominations are to be given to the Secretary of the Students' Society, Mr. R. A. Shackell, by 4 p.m. that day; and the women's nominations handed in at the Women's Union office in the basement of the Royal Victoria College between 1 and 2.30 p.m.

The President of the Students' Society and the President of the

Nominations Deadline For EUS Extended

The deadline has been extended 48 hours for nominations for the post of treasurer of the Engineering Undergraduate Society due to the fact that no nominations for this post had been received to date, it was announced last night by members of this year's executive.

Two other posts have been filled by acclamation. The remaining three will be contested in the faculty elections on Feb. 28.

Clifford J. Quince is the first vice-president and Doug Walkington secretary, both by acclamation. Vincent Jolivet and Roy Sorrenti will contest the presidency, David H. Kennedy and Graham MacHutchin, the second vice-presidency, and Alex Balogh and John Garneau the post of Athletics Representative.

Union can be in any year, the president of the Women's Union may be in any year except first, and the President of the M.W.S.A.A. must be in her third year.

In the faculty of Commerce, nominations are open for the following positions: President (3rd year), Vice-President (2nd year), Secretary (1st year), Treasurer (3rd year) and Athletics Representative (2nd year). The deadline for nominations is Saturday, Feb. 24th at noon.

Arts and Science nominations are also open. The posts to be contested are: President (a male in his third year), 1st Vice-President (a female in her second year), Treasurer (a male in 3rd year), Corresponding and Recording Secretaries (both females in 1st year), and Athletics Representative to the Intramural Athletics Council (a third year male student).

World News Report

New Peace Talks Are Proposed by Big Three

The United States, Britain, and France have proposed to Russia that a big four foreign ministers' conference to ease world tensions be held in Washington, on a "mutually acceptable basis" if such can be agreed upon. The parallel notes from the three countries were delivered yesterday to Soviet Foreign Minister Andre Vishinsky. It was also suggested that preliminary meeting of the representatives of the four countries be held in Paris on March 5, if Russia agrees to talk about the real causes of international difficulties.

In Korea, United Nations troops forged five miles north in pursuit of retreating Communists, after erasing a deep dent in their eastern front. A tank and artillery powered U.S. task force hammered out the ten mile dent and went on to capture the town of Chuchon.

On the western front, reconnaissance patrols pushed five miles northeast of Chipyong, smashing Chinese rearguards covering the mail route of Chinese withdrawal to South Korea. American, British and Turkish troops stretched the lines tight against the Han River all the way from Central Korea to Seoul in a continuous line.

In London, the Labor Government defeated by seven votes, a Conservative motion censuring Prime Minister Attlee's Government for writing off a hundred million dollar loss involved in a plan, to grow peanuts in Tanganyika. It was the fifth try this month by Conservative leader Winston Churchill to overthrow the Labor Government.

Prime Minister St. Laurent told a labor delegation in Ottawa yesterday that if the Government decides that price controls are necessary, he is sure the Canadian people will go along. He added that the Government firmly intends to allow rent controls to lapse on April 30, but will reinstate them later if the situation warrants it. In the House of Commons Opposition Party leaders said that the Government should act immediately to halt inflation and the rising cost of living. As the Government sought broad stand-by powers to impose controls when it deems them necessary, George Drew, Conservative leader, and Solon Low, Social Credit leader, said that the control powers should be used immediately. Mr. Drew felt that the existence of price and wage controls in the U.S. made the use of such controls inevitable in Canada.

President Appeals To Student Body

Students of McGill: Today, I have called a meeting of your Student's Society so that you could consider the proposal to increase student leadership in athletics at McGill. The suggested motion is the first step in this direction.

For some time, your student leaders have felt that your voice should have more influence when athletic matters were being considered, that you should be able to have your elected choice speak for you when decisions were being made on football, hockey, basketball, and all the other sports you take part in. This meeting has been called to let you support or deny this.

To elevate your athletic representative, it has been suggested that he be placed on the governing body of your Students' Society, the Students' Executive Council and become the head of the student athletics at McGill. Only you can bring this about. Only you can say that you want to be heard when athletic policy is being made.

Finally your athletic representative will be able to make certain that the athletic-social activities on the campus like the carnival are run for you and by you. He will prevent them from becoming what many fear will soon be huge commercial publicly extravagant, run by and for Montreal—and the students be damned.

Today is your opportunity to state clearly and loudly, exactly what you want. Don't miss it.

BORIS GARDAVSKY

Reorganization Being Discussed

Compulsory Athletics Moved By Athletics Board

By DON ALLEN

For the third time in less than three months an attempt will be made to put before the student body the question of McGill's athletic set-up. The last two attempts failed when the necessary quorum of 300 was found not to be present.

A Students' Society meeting will take place in the Union Ballroom during the 1-2 p.m. lunch-hour and all members of the Society are eligible to vote on any resolutions that are brought up at the meeting.

The proposed reorganization of the Students' Athletic Council, an amendment to the Constitution concerning the elected representative to the Advisory Athletics Board, and the exchange of Union privileges with Durham and Glasgow Universities, are scheduled to be discussed and voted on at today's meeting.

The first item on the agenda will be the introduction of a motion to give the Athletics representative on the Students' Executive Council a full vote on the Council. This motion was first brought up at a Dec. 5 meeting of the Society but a quorum was not present.

The question of the exchange of

Union privileges with Durham and Glasgow Universities will be the next to be discussed. Students' Society president Boris Gardavsky explained that this would mean that a student of either of these universities would be entitled to the full privileges of a member of the McGill Students' Society if he came to this city. He said that both universities had requested "the exchange of such privileges."

Next on the agenda will be the motion, moved by Ed Crawford, seconded by Bill Magyar, that the reorganization of students athletics that was proposed by the International Council and adopted by the Athletics Council at its meeting on (Continued on Page 4.)

Ticket Booths To Open For Masked Ball

Ticket Booths will be open today and tomorrow during the lunch hours for the Annual Masquerade Ball, on Friday night in the Union Ballroom under the auspices of the Cosmopolitan Club. The booths will remain open as long as tickets last and will be situated in the Arts Building, the Engineering Building and the Union.

The Masquerade Ball will start at 9 p.m. in the Ballroom, and will continue, to the music of the Keynotes, for five hours. Dress for the evening will be costume, a member of the committee stated, with formal optional if accompanied by a penguin mask or by a waiter's napkin and tray. A number of prizes donated for the most original costumes have been donated by various firms in the city.

A supper, the cost of which accounts for a third of the total budget, will be served at midnight, and the evening will also be highlighted by a number of novelty events, the nature of which will be suggested in tomorrow's Daily.

Players Cut Prices Reduced Admission for Premiere As Arena Wing's 'Naked' Opens

KIM JONES

Kim Jones Plays Lead In Performance

Kim Jones, a third year Arts student, is playing the female lead of Ersilia in the forthcoming Arena Wing production of Luigi Pirandello's "Naked".

This will be Mrs. Jones first appearance in an Arena production. Prior to coming to McGill she studied dramatics under Dora Mavor Moore in Toronto.

Kim Jones came to McGill in 1948 from Toronto, where she attended Haverhill College and the Ontario College of Art. She is now honoring in English, and intends to do her M.A. in Canadian Literature.

Cup Adjudication Tuesday

The Arena Wing of the McGill Players Club has announced a reduction in the price of admission to their forthcoming production of "Naked", which will have its Canadian premiere on Feb. 26 in the Ballroom of the Union.

For the opening night only, the price of admission will be seventy-five cents. For the remainder of the play's run the regular admission price of one dollar will be charged.

This special reduction was announced last night by Earl Ingram, President of the McGill Players Club, who stated that a large first-night audience is of prime importance to give the actors a chance in the Regional Drama Festival.

He said that the adjudication night would be on Tuesday, Feb. 27, which means that the actors will have only one performance under their belts before they compete in the Festival. Ingram stated that, "To give the actors any sort of chance in the Festival, a large audience is a prime requisite on Monday night. We feel that by reducing the cost of admission for the opening night only, more students will be able to attend. We aim to keep the Martha Allan Trophy, symbolic of the best production in the Festival for another year, and a full house on Monday night will help make it possible."

He added that those who had already purchased tickets for Monday night's performance, would receive a refund of twenty-five cents on their tickets.

Choral Society Elects New Executive

The executive of the Choral Society for the coming year was elected at a recent practice of the Society held in Divinity Hall.

Five of the nine posts had previously been filled by acclamation and elections were contested for the positions of secretary, publicity director, librarian and social convener.

The new executive is as follows: President, Alan Finlay; Vice-President, Allison Shute; Secretary, Verity Molson; Treasurer, John Bishop; Publicity Director, Esther Pierce; Librarian, Don Cameron; Programme Director, Ben Bonlander; Ticket Sales Manager, John Cleghorn; and Social Convener, Roy Amaron.

On The Sports Beat

by Cy Lewis

Paging Harry Gold

The hockey Redmen don't have enough troubles, what with having dropped two titles through the bad offices of Les Carabins, but some students, and we use the term loosely, lurking in our midst, have criticized them. Did they criticize them for losing? No. For the fantastic ten goals they had scored on them in the second game? No. They had to pick on the most trivial and insignificant of all aspects of the team, their uniforms. It appears that the hockey pants sported by our warriors of the ice battles do not meet with the approval of these aforementioned students lurking in our midst.

What we ask have hockey pants or other items of haberdashery to do with winning hockey games? We are quite sure that one star centre attributes his sterling play throughout the year to the quality of the tape he uses to keep his pants together. There is a certain defence-man, with whom we are on speaking terms, who swears by all that's holy that if it wasn't for superb quality of his skate guards he wouldn't be able to play as well as he does.

Now granted that hockey pants are an important aspect of a hockey players' equipment but lets not lose our heads over them. After all a man can't go out on the ice without hockey pants. They are not only necessary to his protection, but vital to his self respect. He doesn't turn his nose up at the pants because they happen to be of a "murky grey red hue," he has to wear them.

So what if he is in danger of losing them. We have often seen Gordie Knutson shift the opposition right out of their boots, if they should shift our men right out of their pants, then they can't complain because turnabout is fair play. So you see if the pants should fall down McGill players can claim they were shifted out of them with less loss to dignity than if they said they fell off.

You never can tell. It could be that we made enough money on football this year to afford new hockey pants. After all if the grid-ders can have nylon pants why can't our pucksters have silk, or even nylon, if they can't afford silk. This would make our Redmen the best dressed team in the league and thus start a new fashion in hockey clothes, thus making McGill the fashion leaders of the league.

We trust that you the students will give due consideration to this forward thinking motion and support it generously. This will mark a big step forward for McGill in intercollegiate ranks.

It Mustn't Happen Here

Passing from disreputable pants to a somewhat more serious subject, we would like to dwell for a moment on the recent shocking gambling scandal. When the news broke on Monday we were, to put it mildly, sickened to the very core. Now admittedly sports reporters are supposed to be able to play as well as they do.

NOMINATIONS

are hereby called for the office of

PRESIDENT

and

SECRETARY

of the

WOMEN'S UNION

Also

PRESIDENT

of the

M. W. S. A. A.

(McGill Women Students' Athletic Association)

These nominations must be in writing, and must be signed by at least 25 regular women undergraduates. The nominations must be handed in to a member of the Women's Union Executive Council in The Women's Union office in the basement of the Royal Victoria College, between 1 p.m. and 2.30 p.m., February 14th to February 23rd.

The nominees for President of the Women's Union may be in any year but First Year and for Secretary may be in any year.

The nominees for President of The McGill Women Students' Athletic Association must be in their Third Year.

Elections will be held on Wednesday, March 7th, 1951.

McGill Gladiators Prepare For College Invaders

By FRED LOWY

With the exception of one division, the boxing Redmen are all set for the opening of this year's Intercollegiate Championship Meet. This meet, slated to get under way this Friday, February 23 at 8 p.m. will pit McGill's finest against gladiators from Queen's, Ontario Agricultural College, and the defending titleholders Toronto Varsity.

The one undecided spot on the squad is in the 165 pound class. Here, Coach Bert Light has two boys, Shorty Fairhead and Skeet Dorland, both of which look good at present. The final choice between the two will be made at tomorrow's workout as Shorty and Skeet are scheduled to face each other in a practice bout.

The team received a well needed boost in the hitherto weak 135 pound division when Tak Fujimagar, the Intercollegiate Wrestling Champion at that weight, was given the green light by Coach Light. Tak, who has been working out with the squad for the last week, is in tip-top shape after the mat season and will definitely carry the Red and White banner on Friday.

He will join such other title aspirants as Randy Williams, Jack Drouin, Ernie Kovac, Lou Tannenbaum, Jim Miller and Don Stirling. The latter impressed the railbirds at last night's practice with his hard punching and his shifty style. This is Don's first year as a fighter and he has come along by leaps and bounds. One of the qualities most essential for good boxing is just plain "guts". It is a quality that this boy does not lack.

The draw for the semi-final round on Friday has been announced. Fourteen bouts will be staged with fighters from the four competing colleges climbing into the ring in eight divisions. All bouts will be of the four round variety with the rounds being of two minute duration.

The only McGill boxer who draws a bye into the final round of competition is heavyweight Jim Miller; two Toronto sluggers, Betz and Green also move directly into Saturday's competition.

WANTED

A wounded (St. Sauveur) student would like a lift daily from the corner of Cedar and Cole des Neiges in time for nine o'clock lectures. Willing to pay. Call We. 2418.

INTRAMURAL RIFLE MEET

Competition will be limited to Rifle Club members only for the Intramural Rifle Meet to be held on Thursday, February 22nd, 1951.

Unfortunately the over line is correct. The Mustangs do have 6 ft. 6 Doug McNichol on their roster and a very imposing basketball personality he is. He is one of the mainstays on Western coach Johnny Metras' team and is a terrific rebound man.

Red Cagers Prepare For Suicide Weekend

By AL HALPERIN

Once every year, sometime during the middle of the month of February, those individuals connected with the endeavours of the McGill University basketball team, are faced with what has become known as 'Suicide Weekend'.

Experience has shown that this nickname was not ill-chosen. This annual excursion to Toronto and London has dealt the fatal blow to many a cage squad bearing the colors of the Red and White, and this year may be no exception.

On Friday night, Moe Abramowitz sends his do or die outfit against the floundering Varsity Blues in the Queen City, and on the following evening, the Redmen face the high flying Mustangs in their own back yard. A loss in either contest would automatically give Western their ninth straight intercollegiate championship.

Should the desperate Redmen make a clean sweep of the Toronto - Western junket, they would still have to knock off the Varsity quintet on the following weekend to tie the Mustangs for the Big Four Intercollegiate championship. Since this last contest will be played in the familiar setting of the Currie gym where the squad seems to come up with its most commendable performances, everything hinges on this bruising roadtrip.

That the Abramowitz-coached outfit are not at their best in hostile territory is a foregone conclusion, if past performances can be taken as any criteria. They have only won one contest away from home in their entire schedule, that victory being over Queen's Gaels in Kingston last weekend, and the win was anything but convincing.

Although all the team's out of town games have been against tough opposition, their opposition on the weekend's excursion will be equally as stiff, especially in Saturday night's contest with the Mustangs.

That McGill have the ability to overcome all obstacles and return victorious is definite.

Tough Foes Reviewed Facing Red Mermen

By RUDE BRESSLEN

"Go west young man" is a familiar cry, but the Red Mermen have added a clause of their own — "armed to the teeth." Coach Norm Ashton and his swimmers stalk into the graveyard of countless McGill titles as preparations on Saturday afternoon, to compete for C.I.A.U. aqua honors. London, Ontario itself is an ill omen, as the site of the championships, but there are other more material obstacles to the attainment of McGill's third straight crown. Here in the kingdom of Johnny Metras, the combined swimming power of Western and Toronto are poised to engage the McGill team.

Toronto stands an excellent chance of regaining the swimming laurels, held for 13 years prior to 1949. They have the outstanding freestyle star of the collegiate ranks in Doug Gibson. Gibson put on a sensational performance in the title

McGill Braves Face Loyola Championship Stick's End

By FRED GOTTHEIL

The Ottawa St. Lawrence Valley conference championship will lay at stake this Friday night when the McGill Braves tangle with the league-leading Loyola Warriors in a four point feature at the Verdun Auditorium in a game which will decide top dog in the current race.

Coach Rocky Robillard's crew haven't lost a game this year and holds an impressive four wins two draws record to hold down the second slot in the present standings. A win Friday coupled with a victory over Ottawa U on Saturday will give the Braves a first place rating in the final standings, only one point ahead of the Warriors. A one point margin isn't much but sufficiently capable of giving the Braves top honors.

Right now, the Loyola Lads are the hottest team in the league having in their past two encounters turned back the R.M.C. squad 8-2 in Kingston and put the MacDonald crew out of misery with a 10-1 shellacking.

On the other side of the fence, the Braves edged R.M.C. 4-3, after staging a three goal rush in the latter stages of the third period and stopped the Bishop's crew 6-2 for the second consecutive time.

But records are of little use when the teams hit the ice and with the McGill squad at full strength, coach Robillard is confident of a Brave victory.

Not only have the Redmen a powerhouse on the offensive but they also boast the strongest defence in the league.

Len Shaw, who formerly played with the Verdun Maple Leafs and the Quebec Citadels of the C.A.H.A., teams up with Wally Emo on the first set of rear-guards. Emo has been playing great hockey defensively for the Locals and has come up with many goals at the most opportune times.

On the other string, the Braves have Abe Lemontchuck, playing his second year with the Braves, and Tommy Previle, a hard checking rookie.

With these rear-guards in action, goalie Jerry Ferguson has been having an enjoyable season in the McGill cordon but the ex-catholic High goalie has been sufficiently occupied in his goal-tending chores and is one good reason for another cup repeat.

In the forward Jones, Robillard has three strong lines to test the Loyola cage.

Ferrabe and Robertson will take up wing positions with George Andrews in the pivot slot for the first line. Gareau will centre Little and MacFarlane for another trio while Power, Bourguin and Fensom make up the remaining set.

THE BOTTOM DRAWER

may serve in a pinch as a hide-away, but why take chances with your money when it's so easy to open a Savings Account at any one of these four Royal Bank branches near McGill:

Peel and Sherbrooke
St. Catherine and McGill College
St. Catherine and Stanley

Go for widespread collars?...

Then you'll like Arrow's Arno!

Female Swim Clinic Staged for Memorial Pool

This week-end a figure swimming and judges clinic will be held at the new Memorial Swimming Pool under the direction of Mrs. G. R. Sellar, Dominion chairman of figure swimming and Mrs. S. P. Sharpe, Provincial chairman of figure swimming.

All swimmers, judges, aspiring judges and coaches are invited. This is an excellent opportunity for all to brush up on the latest stunts, strokes and to see demonstrations of solo and duets with explanation of the compositions, and judging. Stunts will be demonstrated, flaws pointed out and ratings given. The same will be done with solo and duet routines.

Any girl interested in judging is asked to bring pool or running shoes. The clinic gets underway Friday night at 8 p.m. with demonstrations of figures and strokes, and judging.

The fused semi-widespread Arno collar is smooth-fitting, frames your tie-knot smartly.

And all Arrow shirts are SANFORIZED labelled, guaranteed never to shrink out of fit. Good choice, too—whites, plains, stripes.

See the fine selection at Arrow dealers now.

UNION BALLROOM

Founders Day Held At University of N.B.

Fredericton, N.B. — (CUP) — Founder's Day was held recently at the University of New Brunswick. Prof. T. F. McIlwraith, professor of anthropology at the University of Toronto was the principal speaker in the Founders' Day program.

The chair in the program was taken by the Hon. D. Lawrence MacLaren, P.C., Lieutenant-Governor of New Brunswick and Visitor to the University on behalf of His Majesty. Following opening remarks, President Trueman presented to the Lieutenant-Governor the annual quit rent required of the university by the first land grant in 1800. This was an annual ceremony.

Upon completion of the quit rent payment Dr. Trueman introduced Prof. McIlwraith, who delivered the main address. The evening's program concluded with the re-broadcast over public address system of a radio drama, "The Story of U.N.B."

This was first heard as the opening program in a series of University Radio Productions, presented by U.N.B. students and faculty this winter.

World Prayer Day Events Reviewed

Services in 10 Protestant Churches in the Montreal area recently featured addresses emphasizing the World Day of Prayer for Students, which was sponsored by the World Student Christian Federation. In addition, there was a student rally at the McGill Student Christian Movement House which also included a talk by Rev. William R. Coleman, dean of the Faculty of Divinity at Bishop's University, Lennoxville.

The W.S.C.F. is comprised of representatives of student Christian groups in 45 countries. With headquarters in Geneva, Switzerland, it has a full-time staff of 12, half of whom are travelling secretaries.

APTITUDE TESTING

Is recommended for: Students uncertain in the choice of a career. Adults not making progress in their occupation. Employers as an aid in the selection or promotion of key employees.

CO-ED CLIPPINGS

By Elizabeth Sumner

Winter Carnival is over for another year, and now we can settle down to studying for those exams which start in approximately eight weeks time. (Horrible thought.)

The broomball game between R.V.C. and Douglas Hall which was played at Beaver Lake last Thursday night is apparently still causing a controversy. When this reporter left, the score was 6-4 in favour of R.V.C.; however, we heard various reports of the final score ranging all the way from 18-2 right up to 82-2.

The Women's Union Fashion Show is being held in the Union Ballroom next Tuesday, Feb. 27 starting at 3:15 p.m. The show is being sponsored by the Henry Morgan Co. who sponsored last year's show. Ten co-eds will model the latest spring fashions. Tickets are priced at fifty cents each and are available at the door.

Dusty Baxter, this year's very beautiful Carnival Queen, was to have been among those modeling. However, all models have to be at least 5 feet 6 inches tall, and Queen Dusty is shorter than this. However, Lois Marcou, one of the other candidates for queen, will be one of the models. We'll see you there.

A sure sign of spring at McGill is the appearance on the campus of elections and electioneering posters. Spring must be just around the corner, for nominations have been called for the offices of President and Secretary of the Women's Union and President of the McGill Women Students' Athletic Association. (M.W.S.A.A.)

The nominees for President of the Women's Union may be in any year but First Year, and for Secretary, may be in any year. The nominees for President of the M.W.S.A.A. must be in their Third Year.

Friday is the last day that nominations will be accepted. They must be in writing and signed by at least 25 regular women undergraduates. The nominations must be handed in to a member of the Women's Executive Council in the Women's Union office in the basement of R.V.C. between 1 and 2:30 p.m. any day before Friday, Feb. 23.

Speaking of R.V.C., the new coke machine has been installed, and is in working order. The cost of a drink is seven cents, and you can take your choice of three drinks: Coca-Cola, Orange, or Lemon-Lime.

The Inter-collegiate Athletic Council or the International Athletic Council, it was pointed out.

Gardavsky explained that any change in the constitution of the Students' Executive Council, such as the giving of the full vote to the Athletics Representative, must be ratified before a meeting of the Students' Society and then be approved by the University Senate.

The meeting will be open to motions from the floor.

The question, however, is whether or not a quorum will be in attendance. The president cannot declare the meeting open unless 300 members are present.

Western's initial venture, into the CIAU picture is a somewhat inauspicious one, barring a great upset. The Mustangs are equipped with a new pool and two really good swimmers. They do, however, hold the balance of power. Should their natators cut into McGill points, Varsity could easily walk off with the crown. They have some good freestylers headed by Doug Alexander who has gone 100 yards in about 56 seconds. He also goes a fast 220 yards freestyle. The Mustangs also have a star backstroke in Ted Lutman, who should challenge both the McGill

aces and Varsity's McIlroy for the backstroke event points.

The breaks will be more important than in other years because the forces are so closely matched. Probably several records will go, notably in the events where Gibson and Issenman of McGill, compete, and in the backstroke race where the competitions will be fierce and fast.

Varsity is intent on regaining the lost crown. McGill will savagely strive to retain for a third straight year, that which took 13 years to gain. Western will try very hard not to be anyone's stepping stone to glory — NOT in London, Ontario.

Dr. Hans Selye to Address Pre-Meds

Dr. Hans Selye, formerly of McGill and now connected with the Department of Experimental Medicine at the University of Montreal, will address the Pre-Medical Society at 5 p.m. tomorrow.

His topic will be "New Currents in Medicine" and the meeting, which will be open to the entire student body, will be held in Room 250 of the Biology Building.

Compulsory—p. 1

Monday night providing for elected leadership of student athletics be supported by the Students' Society. The election of the student athletic leader would be on the condition that he had been a member of

A motion to institute a program of compulsory athletics for first-year students at McGill has been passed by the Athletic Board and forwarded to the University Senate for consideration, an A.B. member said last night. A similar proposal previously had been considered and passed by the Students' Athletic Council.

The reference to this proposal which is included in the minutes of the Athletics Board is as follows, he said:

"The proposal to institute a required program was outlined by Mr. Obeck who stated that to his knowledge McGill was the only college in North America with no required program. It was moved and seconded that the Athletics Board recommend to the Senate that the University set up a requirement of two hours per week for all first year men and women. Carried unanimously."

The Inter-collegiate Athletic Council or the International Athletic Council, it was pointed out.

Gardavsky explained that any change in the constitution of the Students' Executive Council, such as the giving of the full vote to the Athletics Representative, must be ratified before a meeting of the Students' Society and then be approved by the University Senate.

M.O.C. Mumblings

It's back to work after a terrific but exhausting Carnival week-end. As each year this event gets bigger and better, we wonder how many people realize that the seed of the idea germinated in the MOC, inspired by the carnival staged by Dartmouth, under the sponsorship of their Outing Club. However it was felt that an undertaking of this magnitude would limit the scope of our other activities and therefore a special Winter Carnival Committee was created. The MOC nevertheless, remained responsible for Mt. Royal night.

A special feature this year was the spontaneous participation of McGill students in the snowshoeing races. Congratulations to Rosemary Kelly who ran eighty yards in 132 seconds, just 0.2 seconds behind Ken Wagner, and to Erla Taylor who placed second. These times are all the more remarkable as none of these contestants had been on snowshoes before.

Friday was, of course, a perfect day in every sense of the word. Mimeographed song-sheets were handed out on the train and although not many Laval students could be found, the MOC made loud and lusty use of them. A number of these song sheets have been kept for distribution at the house

and everyone is encouraged to bring up their IOCA song books for Saturday night sing-songs.

Lunch in the sun raised fond visions of a good spring skiing season—complete with corn snow, Kilster and a gorgeous tan. We hope to find these conditions on a trip to Mt. Tremblant planned for the week-end of March 4. Definite arrangements will be announced next week. For information call Monty Squire at EL. 7579. If the snow holds out we are also looking forward to a repetition of last year's very enjoyable expedition to Mt. Washington after the exams.

As the mercury rose steadily on Saturday and Sunday we sadly watched snow conditions deteriorate, but we can hope for an improvement this week-end. This is the weather for cross-country and if you have never tasted that drink of gods: "trail-brewed tea," by all means grab a lunch, a cup and the 8 a.m. Windsor train, or better still come up Saturday, and enjoy a never-to-be-forgotten experience. The mild weather should also encourage those who were too "chicken" to go winter camping in the winter to give it a try this week-end. If you are interested in going along, call Hugh Stephens at TU. 1081.

Also on Sunday the MOC house will be host to 40 underprivileged boys. Faye Rodriguez is in charge of this annual event and the kids certainly appreciate a day in the mountains. On March 4 the MOC is staging a cross-country race in the Laurentian Zone. Don't forget the "turkeys" trot, a race for unclassified skiers, to be held at Shawbridge on March 11.

Hopes for skating were dashed last night, but the group has a very enjoyable evening swimming (in the pool, not the skating rink) followed by square dancing in the B.W. and F. room. These sessions are held every second Tuesday and everyone is urged to turn out regularly.

Sports Beat—p. 3

posed to be as cynical as they come, but still most of the scribbling fraternity were genuinely hurt and shocked by these sordid revelations.

Why should a state of affairs exist? Could such a thing happen here? Right now these two questions are uppermost in the minds of both professional observers and the casual observers of the passing sports scene. In answer to the first, the theory being forwarded by the writers south of the border is that college sport has become a big business.

Now it is played in the big stadia and arenas before sellout crowds of huge proportions. College sport has made the exodus from the campus to big cities. With all the attention focused on it, basketball naturally is a prime object of gamblers looking for a sucker. Naturally it is to Mr. B.T.O.'s interests to see that things go his way, and as the old saying goes, "every man has his price."

The solution to this problem, say the men of authority, lies in taking college sport right back where it came from, to the college gym or fieldhouse and thus get it away from the disturbing influence of big time gamblers. Others would have a basketball commissioner. Our idea is that a commissioner for all college sports should be appointed with

absolute authority to deal with all matters pertaining to it.

There are many suggestions and ideas and most of them have merit but it remains for the colleges themselves to do something about it. A de-emphasis program is indicated, not unlike the one carried out by Chicago University some years ago.

As to the second question, as long as Canadian College Sport remains at its present level, no such thing will happen. Twenty thousand at a football game is considered extraordinary and two thousand at a basketball game is said to be tops. As long as we keep our sports on the campus, outside influences can't touch them.

McGill Graduate Wins N.Y. Press Club Prize

The New York Newspaper Women's Club annual scholarship has been awarded to former Daily Star reporter Margaret Benjamin of Brookfield, Nova Scotia.

Miss Benjamin won the \$200 award as the best girl student in news reporting at the Graduate School of Journalism of Columbia University.

She attended Dalhousie University and later graduated from McGill. During the war she served in the Women's Division of the R.C.A.F. From 1948 to 1949 she was Women's Editor on the McGill Daily.

The solution to this problem, say the men of authority, lies in taking college sport right back where it came from, to the college gym or fieldhouse and thus get it away from the disturbing influence of big time
